## Muzzle Brake Work Order

### Contact Info:

Name: Rifle Manufacturer:  
Address: Model:  
Phone Number: Serial Number:  
Email Address: Caliber:

### Please let us know what work we will be performing:

- Add Quiet Muzzle Brake
- Shorten the barrel at time of installation  
*Note: Adding a Muzzle Brake adds 1-1/2" to the length of the barrel*
- Thread for suppressor  
Type:  
Thread count and depth:
- Special threads
- Cap

### Shipping Instructions:

- Keep the bolt with you, DO NOT take the barreled action out of the stock. Leaving it in the stock, as this will protect the trigger during shipping.
- If you have an expensive scope please remove it so that it does not get damaged in the shipping process.
- Use a hard plastic gun case with the cardboard box on the outside. Make sure there are no firearm names markings on the outside box, and that there is enough room in the case and box for the extra length of the brake.
- Please print and include this work order with your gun.

If you have any questions please email [kelly@gentrycustom.com](mailto:kelly@gentrycustom.com)

**Please print clearly**
